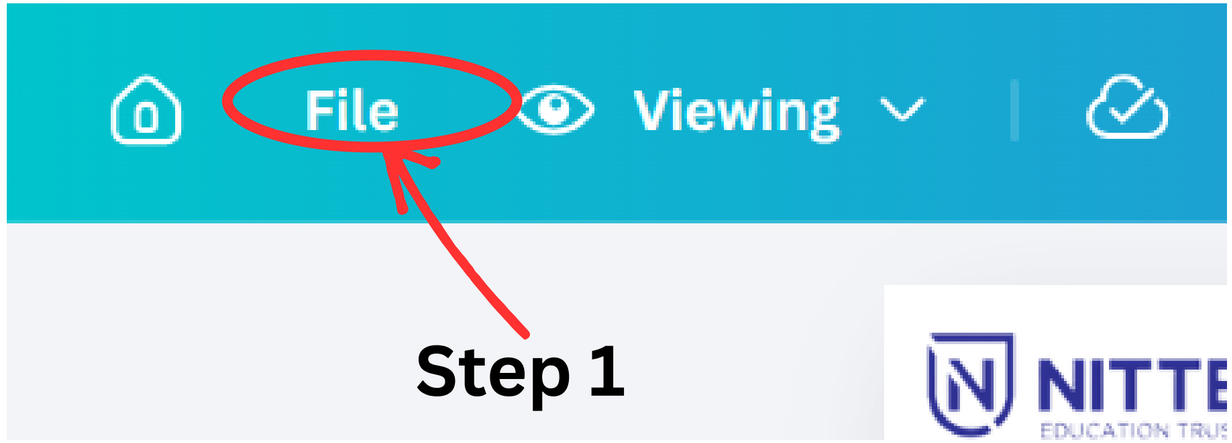
HACKATHON PPT FORMAT

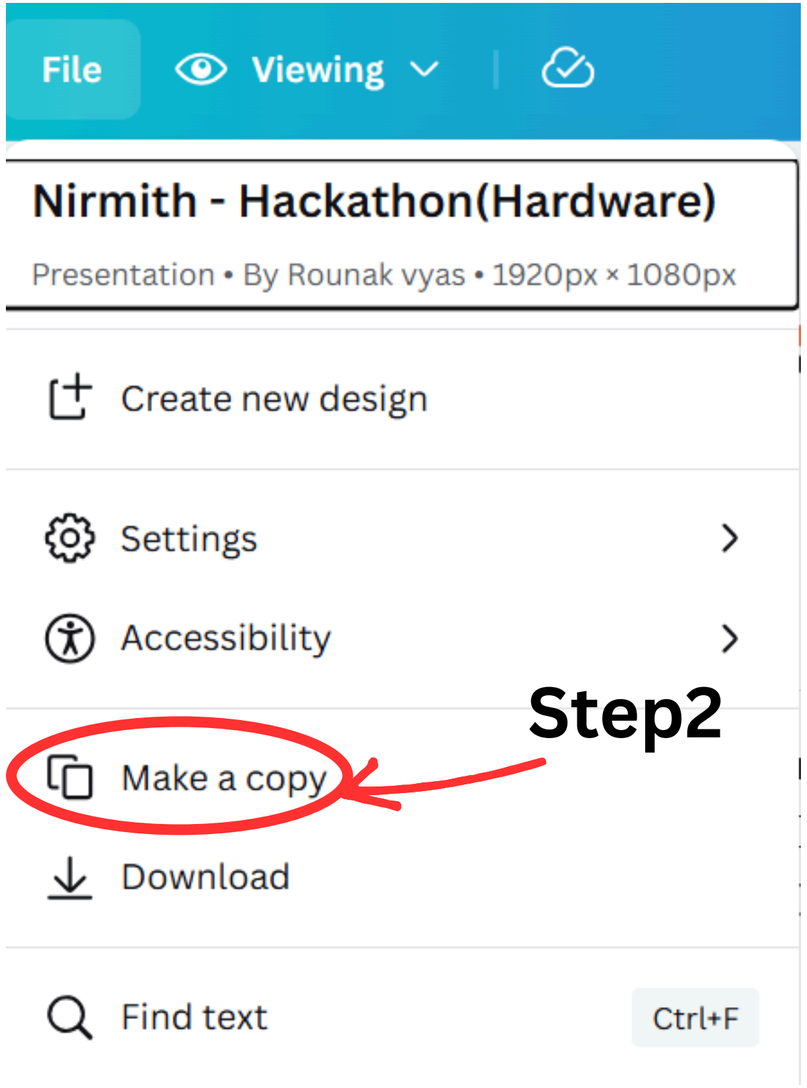
Welcome Participants

- This is the official template for Round 1 of **Nirmith- Hackathon**
- Please make a **copy of this template,** edit it with your content and rename the file as:
    - <Team Name_Lead Name>.
- Upon Completion **please remove** this reference slide, **export as pdf** and upload on the link that will be provided.

All the best...!

See next slide for a quick guide to create copy of this template.





Please delete this reference slide as well before uploading on unstop

1. Participant Information & Topic Name

- Team Name
- Team Lead Name
- Selected Topic

2. Problem Recap & Final Solution

- Brief problem statement
- Final solution implemented

3. System Implementation

- Block diagram / circuit diagram
- Components integration
- Working flow

4. Prototype / Working Model

- Physical model demonstration
- Working explanation
- Key functionalities

5. Technical Details & Challenges

- Components used
- Challenges faced (design, wiring, testing)
- Improvements / optimizations

6. Resulting & Future Relevance

- Output achieved
- Real-world applications
- Future improvements

NOTE : export and upload as pdf
